Transmission & Distribution Senior Engineer - Reliability

Bermuda Electric Light Company Limited (BELCO) is pleased to invite applications for Transmission & Distribution Senior Engineer-Reliability reporting to the Vice President Systems Reliability Engineer in the System Reliability, Operations Group.

Job Description: Assist and advise on all matters related to reliability engineering projects for the Transmission & Distribution System.

- Analyze equipment/system failures to determine root causes with recommendations (Facilitate Root Cause Analysis Workshops)
- Investigate unplanned events and facilitate a permanent resolution across like equipment/systems
- Facilitate identification and bridging of any gaps between existing skills/roles and updated maintenance strategies
- Manage projects to improve reliability
- Continually bring leading edge solutions to maintenance and reliability via ongoing professional development in the field
- Manage network incidents via an Incident Management System

Education and Experience Requirements:

- Engineering degree from a recognized university or equivalent qualification, satisfying the requirement for registration as a professional or Chartered Engineer
- A minimum of 7-10 years experience in the field of Electrical Engineering, five of those years at a leadership level
- Strong experience is required in leading Root Cause Analysis workshops
- Must adhere to the ethical standards of the Professional Engineers Registration Act of Bermuda
- Value centered with high integrity
- Self-motivated and committed to teamwork
- Model safety and operational standards

Please apply in writing by Friday, October 7 to:
