

Understand your bill.

Charges & Credits

Charges & Credits are calculated based on the amount of kWh used. They are separated into 3 price tiers.

Regulatory Authority Fee

This fee is a legal requirement that is remitted to the Regulatory Authority to cover their operating costs.

Facilities Charge

The Facilities Charge is a fixed fee that covers the cost of maintenance, equipment and infrastructure we need to deliver electricity safely and reliably.

Discount Date & Value

A discount is applied if your bill is paid on or before the date listed.

Consumption Comparisons

This summary compares your most recent kWh usage with usage during the previous month and the same month the year before. It's included to help you monitor your energy usage over time.

BELCO's Service Rules outline the terms and conditions under which service is supplied by BELCO to the customer. Copies of the Service Rules may be found at belco.bm and are also available from BELCO's Head Office at 27 Serpentine Road, Pembroke HM 07.

Fuel Adjustment Rate

The Fuel Adjustment Rate contains 2 components:

1. Fuel Adjustment
2. Government Tax

Your cost is calculated by multiplying the FAR with your total kWh.

1. Fuel Adjustment

This rate, which is calculated on a quarterly basis, is based on the total cost of purchasing fuel and transporting it to BELCO.

2. Government Tax

Government Tax is the duty put on imported fuel, plus UNESCO World Heritage Tax.

CONSUMPTION
kWh

Your kilowatt hour (kWh) usage represents the amount of energy your household consumed over the billing period. You've got the power to save on future bills by reducing this amount with help from the energy efficiency tips at belco.bm.
